Workshop Sponsorship

HDAA holds numerous workshops per year. These workshops are engaging, positive and stimulating, focussed on practical knowledge and skills and part of our Professional Learning Program. Our format includes the provision of valuable professional speakers and resources; arrival and break refreshments and an after-workshop networking event. All of this in a relaxed and distinguished environment where people can share their learning experience as well as debrief about their role and management concerns over canapés and drinks. The format and length of the workshop may vary depending on topic.

GENERAL

Vendor Neutral Statement

HDAA is looked upon as an organisation that promotes collaboration and provides knowledge, advice and guidance to service and support professionals. The direct sale of products and services by vendors is not the focus of HDAA but rather how the services and products enable the industry's evolution.

We believe the best value on investment (VOI) for vendors is to build credibility and rapport with our members by demonstrating how your products and services enable the industry's evolution and enhance the quality of their own services. We encourage all ITSM vendors to contribute to the health and development of the Service and Support Profession whilst still maintaining their VOI.
